DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on July 17, 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): an election of species of A-E. See 37 CFR 1.111.

Applicant's election without traverse of the group I invention in response to the office action dated February 21, 2006, claims 94-107 in the reply filed on March 22, 2006 is acknowledged.

Applicant was also presented with an election of species in that same office action, to elect one of each of A-E. In the reply dated March 22, 2006, applicant incorrectly elected one genus from the species election. Applicant was again instructed to elect one species of each genus listed as A-E. In the reply dated July 17, 2006, applicant does not appear to understand the election. The purpose of an election of species requirement is to simplify the search and issues considered during prosecution, and that because this is so, the ultimate allowance of a generic claim will encompass all additional species within the scope of the allowed genus. Stated alternatively, the purpose of an election of species requirement, as opposed to a restriction between claim groups, is to reduce the burden on the examiner during prosecution only; a full search is merely postponed until allowance of the generic claim. Applicant states that it is puzzling that the examiner has asked for an election of one of each of species A-E because claims encompassing species C, D and E are not currently in prosecution. The examiner asks that applicant's representative take another look at the claims.

In the office action dated August 11, 2005, a non-final rejection was issued over claims 1, 38-55, 68, 92 and 93. In response to the non-final rejection, applicant cancelled all the claims and submitted new claims 94-116. At this time, the examiner issued a restriction (2 groups) and an election of species for one of each of species A-E. The examiner is still waiting for the election of species to be made.

The declaration of Dr. Civan is noted and it is noted that he claims that "neither timolol nor any other beta blocker is considered to be an NHE inhibitor". However, page 13 of the instant specification clearly spells out what is included by the term NHE inhibitor. It includes "beta blockers, e.g. timolol or amiloride" (page 13, lines 11-28).

Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donna Jagoe whose telephone number is (571) 272-0576. The examiner can normally be reached on Monday through Thursday from 9:00 A.M. - 3:00 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ardin Marschel can be reached on (571) 272-0718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.

Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
